---

## PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with strong experience building secure, scalable, and high-performance web and mobile applications. Skilled in modern JavaScript frameworks, back-end architecture, RESTful APIs, authentication systems, and real-time communication. Passionate about clean code, performance optimization, and delivering reliable digital solutions for start-ups and businesses.

---

## CORE SKILLS

### Frontend Development

React.js, React Native, JavaScript (ES6+), Typescript, HTML5, CSS3, Bootstrap, Tailwind CSS, Livewire, Blade

### Back-end Development

Node.js, Express.js, Laravel, RESTful API Development

### Authentication & Security

JWT Authentication, Passport.js, OAuth (Google, Facebook, etc.), Two-Factor Authentication (2FA), Password Hashing & Encryption, Sessions & Cookies

### Databases

MySQL, MongoDB

### DevOps & Tools

Git & GitHub, Postman, Environment Configuration

---

# PROFESSIONAL EXPERIENCE

## Full-Stack Developer

### Freelance / Contract

2022 – Present

1. Designed and developed scalable web and mobile applications using React, React Native, Node.js, Express.js, and Laravel.
  2. Built secure authentication systems including JWT, social login, OTP verification, biometric unlock logic, and session handling.
  3. Developed RESTful APIs with proper validation, error handling, and role-based access control.
  4. Implemented real-time messaging systems using WebSockets for chat applications.
  5. Integrated email, SMS, and push notification services for user engagement and alerts.
  6. Optimized database queries and backend logic to improve performance and reliability.
  7. Collaborated with clients to translate business requirements into technical solutions.
- 

## KEY PROJECTS

### Authentication & Security API

Complete authentication system featuring JWT, social login, OTP, 2FA, password reset, session management, and rate limiting.

Built with Node.js, Express.js, and MySQL.

### Real-Time Messaging Platform

Chat system supporting real-time communication between users and hosts.

Implemented WebSockets with authentication and message persistence.

### Estate Management Web Application

Property listings, user management, role-based access, notifications, and admin dashboard.

Built using Laravel and React.

### SMS & Notification System

Integrated Termii SMS API for Nigeria and email notifications using Nodemailer.

Used in user verification and system alerts.

---

## EDUCATION

### **Higher National Diploma (HND)**

*(Computer Science)*

Federal Polytechnic, Oko Nigeria

---

## ADDITIONAL EXPERIENCE

### **Guidance Counselor & Administrative Assistant**

Developed strong communication, documentation, and organizational skills.

Experience managing records, coordinating tasks, and supporting decision-making processes.

---

## PROFESSIONAL STRENGTHS

Strong problem-solving and debugging skills

Clean, maintainable code practices

Security-focused development mindset

Ability to work independently or within a team

Continuous learner with interest in modern technologies

---

## AVAILABILITY

Open to **Full-Time**, **Remote**, **Contract**, and **Freelance** roles
